EXECUTIVE SUMMARY

Results-driven Technical Lead Engineer with over 5+ years of production experience architecting high-throughput financial infrastructure, reactive microservices, and API platforms. Proven record scaling fintech backends to process over **1 Crore (10,000,000+) daily transactions**, modernizing India's Account Aggregator framework, and driving enterprise Generative AI initiatives.

PROFESSIONAL EXPERIENCE

Perfios Software Solutions Pvt. Ltd. — Bangalore, India

Jul 2019 — Present (5+ Years)

Technical Lead Engineer

Apr 2024 — Present

- Engineered the scaling of Perfios Account Aggregator (AA) framework microservices using **Reactive programming**, optimizing system throughput to handle close to **1 Crore (10M+) daily transactions** while drastically minimizing tail latency.
- Spearheaded architectural modernization of core Account Aggregator microservices, transitioning legacy monolithic components into resilient microservices on **Kubernetes & AWS**; spearheaded enterprise **Generative AI PoCs** with LLMs.

Principal Software Development Engineer

Apr 2023 — Mar 2024

- Architected an enterprise **API Orchestration Layer** standardizing external banking service invocations, promoting code reusability and reducing integration turnaround for new financial institutions by several weeks.
- Owned end-to-end SDLC of the **Financial Information Provider (FIP) module**, taking the product from whiteboard architectural design to a production-grade system handling millions of requests daily.

Senior Software Engineer & Software Developer

Jul 2019 — Jun 2023

- Led technical onboarding for marquee Tier-1 Private and Public sector banks to the Account Aggregator platform, guiding stakeholders from sandbox certification to live production rollout.
- Developed a high-throughput real-time data streaming service using **Apache Kafka** to feed the Admin Dashboard; built Perfios-AA Admin Dashboard (React JS, Spring Boot) with automated **Docker & GitLab CI/CD**.
