PROFESSIONAL SUMMARY

Technical Lead Engineer with over 5+ years of engineering leadership architecting high-throughput distributed systems, reactive microservices, and financial infrastructure. Proven record scaling India's Account Aggregator (AA) framework to handle **over 1 Crore (10M+) daily transactions**, modernizing legacy banking integrations, and driving enterprise Generative AI initiatives.

WORK EXPERIENCE

Technical Lead Engineer Apr 2024 – Present
Perfios Software Solutions Pvt. Ltd. Bangalore, India

- Engineered the scaling of Perfios Account Aggregator (AA) framework microservices using **Reactive programming (Spring Boot & WebFlux)**, optimizing system throughput to handle **1 Crore (10M+) transactions per day** with reduced latency.
- Spearheaded architectural modernization of core AA microservices into resilient microservices containerized on **Kubernetes & AWS**; led development of **Generative AI PoCs** evaluating LLM feasibility for financial automation.

Principal Software Development Engineer Apr 2023 – Mar 2024
Perfios Software Solutions Pvt. Ltd. Bangalore, India

- Architected an enterprise **API Orchestration Layer** standardizing external banking service invocations, promoting code reusability and reducing institutional integration turnaround by several weeks.
- Owned end-to-end SDLC of the **Financial Information Provider (FIP) module** from whiteboard design to a production-grade system handling millions of daily customer requests across the ecosystem.

Senior Software Engineer & Software Developer Jul 2019 – Jun 2023
Perfios Software Solutions Pvt. Ltd. Bangalore, India

- Led technical onboarding for marquee Tier-1 Private and Public sector banks to the Account Aggregator platform, guiding institutional stakeholders from sandbox testing to production rollout.
- Developed a high-throughput real-time data streaming service using **Apache Kafka**; built the Perfios-AA Admin Dashboard with **Spring Boot & React JS** with automated **GitLab CI/CD & Docker**.
